ABOUT ME

By education I am a scientific, analytical mind. Mathematics and physics are well known to me. My career has taught me sales, but also, above all, teamwork and empathy for the other person. In the future, I would like to become a Team Leader, so I started to educate myself in this direction as well. Nevertheless, I would like to associate my future with IT, because it offers many opportunities to make life easier and better. There is a solution to every problem, you just have to look for it.

ADDITIONAL SKILLS

- Xcode
- Git & GitHub
- Using Terminal
- SQL, Python, Matlab
- Knowledge of DRY & SOLID rules
- XCTest
- JSON
- Native language - Polish
- English - fluent B2
- German - basic A2
- Familiar with Office 365
- Driver's license B category
